

NORTHEASTERN CHAPTER NEWS

Volume 2 Issue 4

July/August 2015

MESSAGE FROM THE PRESIDENT

Greetings and Aloha to all of my friends, peers and associates in the Northeastern Chapter, the month is August, school is back in session, and fires are burning throughout our state. I hope you all are doing well, that you had a great summer with at least some R&R, and are planning to finish out 2015 strong. In our business we know that we have to be prepared for the unexpected, as I sit here in my hotel, still deployed for the fourth month, to assist our operations in Hawaii, I prepare for a potential hurricane or tropical storm to hit. Last week I read an article about the "BIG" one coming to the west coast. Whatever the situation fires, floods or earthquakes, we are expected to be prepared. What have you done today to make sure you are better prepared for what tomorrow may bring?

The month of July was a busy month, our chapter meeting was hosted in Lake Tahoe for the third straight year, and for the second straight year our visit brought rain. Fortunately for those who were able to hit the links they did not get wet and enjoyed an absolutely beautiful day at a great course. We had a good group show up this year and we all enjoyed networking and a great dinner. I want to thank Carsten Lunde of CYA for his support and sponsorship for the evening's dinner, raffle prizes and for stepping in when our presenter was unable to make his commitment to show up.

Following a quick trip to Lake Tahoe I was able to make the trip to Boston to attend and enjoy the ASHE conference. What a great conference, it just seems like every year just gets better and better. From the opening key note speaker, Tom Henry who spoke from his book "Die Empty: Unleash Your Best Work Every Day". Todd discussed how many of us get stuck in mediocrity and how to avoid common ruts and pitfalls so that we can unleash our best work, every day. Of course we had opportunities to hear from George Mills of The Joint Commission and many other great presentations to motivate and assure us all we are doing the right work. I'm already looking forward to next year's institute that will be held in Denver Colorado, so mark your calendars now and plan to attend.

Our next Chapter meeting will be on September 16th! I know that's not the date posted on the calendar, (a revised calendar has been posted to the website) but that turned out to be the only Wednesday Kevin was able to book a room to host us. So make the change on your calendar and move some things around because we want to see you, feed you and educate you at Enloe Medical Center in Chico, hosted by our Chapter Vice President, Kevin VanderVelden. Our presentation will be covering Temperature/Humidity and Pressurization. I'll see you there!

Don't forget about our 8th Annual Nor Cal Institute at the Scottish Rite in Oakland on October 22, 2015. Lastly, I want to thank Charles Witcher, Mike Pierce, and Pete Plessas for accepting the responsibility to lead our election committee this year. If you desire to run and fill one of our officer roles or want to elect one of your peers, please contact one of them. I've had a great time leading this chapter and look forward to giving the helm over to others to lead this chapter to new heights.
