

CSHE NORTHEASTERN CHAPTER NEWS

MESSAGE FROM THE PRESIDENT

Greetings Northeastern Chapter Members:

I would like to thank everyone who attended our May meeting at Kaiser Roseville. Chris Bellizzi from EAI gave a great presentation on water conservation strategies. Specifically, how facilities can conserve water through reuse and reduction of existing water streams. I'd also like to thank Dave Lockhart and Kaiser Roseville for hosting the meeting and ATI for the dinner and raffle sponsor.

Last month, we enjoyed a fantastic tour of the new Stanford Medical Center. It was a hard hat tour of the facility, which is still under construction. Thanks to Annette Sullivan from ATI for setting it up!

CSHE NORTHEASTERN CHAPTER NEWS

MESSAGE FROM THE PRESIDENT

I hope everyone was able to attend the CSHE annual institute in Squaw Valley in May. It was a great event with a lot of good educational classes. Congratulations to Amy Panoushek! Amy was the Northeastern Chapter facility member that was selected to attend the annual institute courtesy of CSHE.

As you all know, education is the foundation for CSHE. On the 2nd Thursday of each month CSHE offers in-service webinars. The next webinar will take place August 11th from 11:30 AM – 12:30 PM. This is a great opportunity for you and your staff to get some free education. Check the CSHE website for the 2016 webinar calendar, or if you have a topic you would like to present on, contact the CSHE office.

Make sure to mark your calendar to attend the 9th Annual CSHE Northern California Seminar. This year's seminar, *The Best Offense is a Good Defense: Know the Regulatory Red Zone*, will take place on Thursday October 6th at the Santa Clara Convention Center. You will also have the opportunity to purchase tickets to tour the 49ers museum and stadium on a future date.

I'll be hosting our next chapter meeting on Wednesday, September 14th at Enloe Medical Center in Chico. Our presenter, Grainger, will talk about energy saving opportunities for facilities. I hope to see you there!

Take Care,

Kevin VanderVelden
